# Brocade commands cheat sheet

### Mainline 12.4(7a)

Maintenance Release  
Individual Release  
Numbered Version

### T Train 12.4(9)T1

Maintenance Release  
Individual Release  
New Feature Identifier  
Numbered Version

### S Train 12.2(25)SEB4

Release  
Individual Release  
Numbered Version

### IOS XR 3.2.1

Major Release  
Minor Release  
Maintenance Release

### EOS Notice

Release Type	Months
EOS	12
EOE	36
EOL	72

**First Customer Shipment (FCS)**  
The release is made available to Cisco customers on CCO

**EOS Notice**  
Notification of upcoming EOS

**End of Sale (EOS)**  
The release is no longer orderable or included in manufactured shipments

**End of Engineering (EOE)**  
The last day for software fixes; only TAC assistance is offered from this point

**End of Life (EOL)**  
The last day for TAC support; release becomes obsolete; upgrade is only option for continued support

### IOS Filename

c3725-entbase-mz.124-6.T.bin

- Hardware
- Feature Set
- Memory Location
- Compression Format
- Maintenance Release
- Individual Release
- T Designator

### Deployment Classifications

**Early Deployment (ED)**  
Offers new feature, platform, or interface support

**General Deployment (GD)**  
A major release considered qualified for deployment on critical devices

**Limited Deployment (LD)**  
A major release prior to reaching its GD milestone

**Deferred (DF)**  
Known defective images; should not be installed

### IOS Version Verification
